

## **Managing Through the Dynamics of COVID-19**

**We've already taken a series of precautionary steps in response to this emerging public health impact:**

- Regularly sanitizing all high touch areas, including door handles, table condiments, and lunch menus
- We will be using disposable dinner menus
- Continuing safe practices, any unused items that make it to the table will never be reused, such as butter packets, etc.
- Gloves will be worn at all times when handling any food, serving meals, or handling money or credit cards
- Bathrooms will be regularly cleaned and sanitized while ensuring supplies are topped off
- Ensuring our employees have the information they need to stay healthy or stay at home if they are feeling unwell
